## Panel of Distinguished International Speakers and Trainers

### Dr. Abdala Kalil, M.D.

Dedicating his practice exclusively to non-surgical cosmetic medicine, Abdala Kalil M.D. is part of a new breed of doctors blazing a trail in the anti-aging industry. He is Board Certified in Internal Medicine and spent five years working in the ER prior to starting the Vitality Institute in the year 2000 in order to fulfill his true passion of practising aesthetic medicine. Dr. Kalil is a founding member and featured speaker of the American Society of Aesthetics & Intradermotherapy (ASAMI). He graduated with a medical degree from the Universite Libre de Bruxelles in Belgium with top honors and came to the United States in 1983 to complete a series of residencies and internships. Dr. Kalil speaks five languages. An industry leader and visionary, Dr. Kalil hosts monthly lectures and currently leads various different medical societies that exclusively deal with aesthetic medicine and offers daily private training to other medical doctors from all around the world. Dr. Kalil will open your mind and keep you wanting for more with his captivating and simplified teaching approach.

### Dr. Pierre Fournier, M.D.

Dr. Fournier is a specialist in Aesthetic Plastic Surgery and is Board Certified in Cosmetic Surgery by the American Board of Cosmetic Surgery. He is an Honorary Fellow of the American Academy of Cosmetic Surgery and a Permanent Honorary Member of the American Society of Aesthetics & Intradermotherapy (ASAMI). Dr. Fournier is the co-inventor of Liposuction and Lipofilling techniques. Dr. Fournier rank among the top echelon figures in modern aesthetic surgery and his creativity is an inspiration to all physicians in this field of medicine. Dr. Fournier's great expertise and many years of experience will be a valuable and rewarding contribution to delegates' investment and time.

### Dr. Sam Bassam Assassa, M.D.

Dr. Sam Assassa is the founder of Beverly Hills Aesthetics. Since 1995 he has been exclusively practising aesthetic medicine in Beverly Hills, California. Dr. Assassa is Board Certified in Internal Medicine. He received his medical degree with Honours, in 1980. He carried out his internship in Chicago at Loyola University - affiliates licensed hospitals and completed his residency training in Cleveland at Case Western University - affiliated hospitals. He is an associate member of the American College of Physicians, a member of the American Mesotherapy Association and the American Academy of Anti-Aging Medicine as well as serving on the Advisory Committee of the American Aesthetic Medicine Association. He is also a permanent Honorary Member and featured speaker of The American Society of Aesthetic Medicine and Intradermotherapy (ASAMI).

### Dr. Kee Lee Tan, MBBS (WA) FRACGP MCPSA FFMACCS

Medical Director of Rejuvenate Cosmetic and Plastic Surgery (Australia), Dr Kee Lee Tan has been practising Cosmetic Surgery since 1999. He graduated from the University of Western Australia in 1992 and currently practises in Perth, Western Australia. He is also a tutor and lecturer at the International Academy of Cosmetic Medicine, which conducts cosmetic medicine courses in Asia. He has performed extensive research involving microdermabrasion for the treatment of acne, acne scars and aging skin. His research findings have been presented at the 2002 Cosmetic Physicians Society of Australasia Conference in Perth, the 2002 Australian College of Cosmetic Surgery Conference in Sydney and the 2002 World Congress of Cosmetic Surgery in Shanghai. In his practice, he performs all facial cosmetic procedures such as non-surgical facelift, total facial sculpturing, laser treatments, liposuction, breast augmentation, etc. Dr Tan is also an international accredited trainer for Fillers, Collagen, Microdermabrasion, Featherlift Aptos threads and Botox. Dr Tan is a liaison officer for Australasia College of Cosmetic Surgery for Indonesia.
