Martin Haines on (08) 9423 8612 or 0418 656 308

or email martinh@medtel.com.au

RSVP by: Monday 3rd September 2007

Fractional Resurfacing leaves small bridges of untouched skin to speed healing.

Immediate tightening of eyelid laxity

before

1 week after treatment

ActiveFX™ Fractional CO₂

means dramatic improvement in skin **tone**, skin **texture** and skin **tightening**, with continued collagen regeneration.*

- **Single**, fast, easy treatment
- Minimal downtime—typically only 3-5 days
- Remarkable results
- No consumables
